**Subject:** SEDFlume consolidation tests

Folks,

Our lab consolidation schedule may have to shift, given that we have had some delays with the sedflume field work and the possibility of a storm next week.

Jason is checking with the Santa Cruz lab and trying to rearrange the schedule. The only caveat may be that we have a modeling meeting on November 13, but we can reschedule that. I will let you know as soon as possible what the plans are.

Thanks,  
eugenia
